Professional Summary:

Motivated and results-driven Python Developer with a strong foundation in web development and software engineering. Skilled in Python (Flask, Django), Java, and front-end technologies, with hands-on experience in developing scalable and efficient applications. Known for a proactive approach, quick adaptability, and a passion for delivering innovative solutions to real-world challenges. Committed to contributing effectively within dynamic team environments and continuously enhancing technical expertise.

Education:

CMR Institute of Technology

B.Tech in Computer Science Engineering with CGPA - 7.32.

Aug 2021 – Apr 2025

Hyderabad, Telangana.

Narayana Junior College

Intermediate in MPC with CGPA - 9.5

Apr 2019 – Apr 2021

Hyderabad, Telangana.

Sachdeva School of Excellence

SSC with CGPA - 9.5

Apr 2019

Ramagundam, Telangana.

Internship:

Edugene Technologies

Software Development Intern

Apr 2024 – Oct 2024

- Contributed to the design and development of web-based solutions using Python and Flask/Django frameworks.
 - Acquired hands-on experience in building scalable, high-performance web applications and integrating RESTful APIs.
 - Collaborated within an agile team environment, actively participating in code reviews, sprint planning, and cross-functional development activities.
-

Projects:

• Calorie Estimation through Machine Learning

- ✓ Developed a Calorie Estimation System leveraging image recognition and machine learning to predict calorie content from food images.
- ✓ Utilized Python, OpenCV, and various ML algorithms for image processing and predictive modeling.
- ✓ Addressed the real-world challenge of obesity management by enabling users to track their food intake through visual analysis.

• Amazon Web Clone

- ✓ Developed a front-end replica of Amazon's homepage using HTML and CSS, showcasing strong web design and layout skills.
- ✓ Emphasized responsive design, cross-device compatibility, and visual consistency to enhance user experience.

• Travel and Tourism Management System

- ✓ Created a Java-based console application to manage bookings, destinations, and user data.
-

Technical Skills

Languages: Python, Java, C, JavaScript

Web Development: HTML, CSS, JavaScript, Flask, Django

Database: MySQL, SQLite

Tools & Technologies: Git, GitHub, Postman, VS Code, Virtualenv

Concepts: REST APIs, OOP, Debugging, MVC Architecture

Soft Skills

Teamwork & Collaboration

Adaptability & Quick Learning

Team Management & Leadership

Self-Motivation

Effective Communication

Achievements

State-level swimmer

Active member of the college sports club

Successfully coordinated “Scintillations” Annual Day event with engaging activities

Certifications

➤ Python Intermediate Certificate

➤ Java Internship Certificate

➤ "Smart Coder" Recognition

Interests

✓ Playing cricket

✓ Watching movies
